*The Pike County Elder Abuse Task Force was formed in 2013 as a joint venture of the Pike Area Agency on Aging and the District Attorney's Office in response to the growing number of cases involving the elderly in Pike County. Our members consist of concerned businesses, professionals and care providers looking to get involved and make a difference in the lives of our community members who are vulnerable. We build awareness and educate senior citizens and those who serve them to help prevent crimes against the elderly. We plan informational and educational events that are free to attend which address the concerns of the elderly, their caregivers, as well as the professionals and organizations that serve our elderly citizens.*
